

Celebrating our newly patented!...

Boomerang Spill Response System

**ON
SALE
NOW!**

Don't let your profits
go down the drain...

**PREVENT, RESPOND,
AND CONTAIN**

Light-weight, weather-tight, aluminum housing for neat and dry storage of the spill response system. The spill boom or diking device can be deployed in seconds keeping the release to a confined area. Designed with a leak proof lower region that can be used as a containment area for transporting contaminated spill materials and/or recovered product.
